

Guinea Pig

Ten thousand dollars. It was a lot of money for a simple injection. It was a lot of money for a student. And the one thing that William Simons knew about the research trial was that it was safe. Of course he said yes. But that was before he discovered that Doctor Millen had a secret agenda. Before he discovered that what had been given wasn't the same as what the other subjects had been given. And it was before his body started to transform into something else. Something not human. It was also before a series of inexplicable natural disasters started to destroy Los Angeles.
