

Medical Surgical Nursing: Assessment and Management of Clinical Problems (VOLUME 1 of 2, Chapters 1-37)

Highlights the content that is most relevant and challenging for today's nursing students, including patient teaching. This book contains solid, research-based content presented in a concise, readable, and consistent format. Special features highlight the content that is most relevant and challenging for today's nursing students, including patient teaching, community and home care, gerontology, cultural and ethnic considerations, collaborative care, nutrition, and critical thinking. Nursing management content is discussed in a unique levels-of-care approach, with separate headings for Health Promotion, Acute Intervention, and Ambulatory and Home Care. More than just a textbook, it is a comprehensive resource with the essential information that students need to prepare for lectures, classroom activities, examinations, clinical assignments, and comprehensive care of patients.
