The Source of the Worlds Magic Has Gone Mad... To Faia Rissedotes dismay, the use of magic in Arhel has gotten out of control, and even people who could never use magic before are suddenly building castles in the air. Unneeded, unwanted, Faia discovers facts about herself she never suspected. But when Arhels magic dies and civilisation is thrown back to a way of life no one remembers how to manage, Faia sets out to find the truth and fix the problem... And discovers that love cannot be captured, only given; that history lies; and, the lies history tells hide truths that always come back to hunt the people who ignore them.
