

## Power Play: Act 1 Svartalfheim (Ragnarok on Ice)

Svartalfheim, home to the dark elves and the place where our story begins. Rumil is tired of the contempt other races of the realms show to her people. Not content to sit back and watch her people struggle, she ventures out of the safety of her own realm and into the Great Forest. Doing everything she can to find out the true reason for the distrust of her people, her destiny brings her a rival, hope, and even love. Jack Skelton, a divorced minor league hockey player from Midgard, gets sucked into the realms by mistake. Finding out the people closest to him aren't who they appeared to be, he finds himself in a hostile environment where survival is hard even for the strongest of gods. It's only when he discovers the most unlikely of allies does his story truly begin. Fate brings these two together, human and elf, as the beacons of hope. An underlying plot, fueled by a hate as old as the realms, is in place to bring about the Ragnarok—the Twilight of the Gods. Jack and Rumil find themselves at the center of the plot with every intention to put an end to it. The problem could the one who is hoping to stop it also be the one destined to start it? Join Jack, Rumil, and a whole host of gods straight from the Norse mythology pantheon in the first act of the Ragnarok on Ice trilogy! \*\*Reviews of Power Play: Act 1 Svartalfheim Power Play is probably the most unique and refreshingly different story I have read this year.
