First performed on 14 February 1895 at the St James Theatre in London, it is a farcical comedy in which the protagonists maintain fictitious person? to escape burdensome social obligations. Working within the social conventions of late Victorian London, the plays major themes are the triviality with which it treats institutions as serious as marriage, and the resulting satire of Victorian ways. Contemporary reviews all praised the plays humour, though some were cautious about its explicit lack of social messages, while others foresaw the modern consensus that it was the culmination of Wildes artistic career so far. Its high farce and witty dialogue have helped make The Importance of Being Earnest Wildes most enduringly popular play. The successful opening night marked the climax of Wildes career but also heralded his downfall. The Marquess of Queensberry, whose son Lord Alfred Douglas was Wildes lover, planned to present the writer with a bouquet of rotten vegetables and disrupt the show. Wilde was tipped off and Queensberry was refused admission. Soon afterwards their feud came to a climax in court, where Wildes homosexual double life was revealed to the Victorian public and he was eventually sentenced to imprisonment. His notoriety caused the play, despite its early success, to be closed after 86 performances. After his release, he published the play from exile in Paris, but he wrote no further comic or dramatic work. The Importance of Being Earnest has been revived many times since its

premiere. It has been adapted for the cinema on three occasions. In *The Importance of Being Earnest* (1952), Dame Edith Evans reprised her celebrated interpretation of Lady Bracknell; *The Importance of Being Earnest* (1992) by Kurt Baker used an all-black cast; and Oliver Parkers *The Importance of Being Earnest* (2002) incorporated some of Wilde's original material cut during the preparation of the original stage production.
