

This New Disease (Living With the Dead Book 5)

In this pivotal volume of Living With the Dead, survivors all across the country struggle against a new breed of zombie, living enemies bent on murder and destruction, and even larger threats almost impossible to fight. Two years after The Fall, the cataclysm brought on by the zombie plague, survivors everywhere are building a new world. The cost has been high, both physically and mentally. How will the tenuous civilization emerging from the wreckage of what was manage under an onslaught from forces beyond their control? Read on and discover that beyond the need to truly live comes the hard choice on how to move forward. In the face of dire adversity, can the survivors in Kentucky stay on the right path?

Roger Ebert, Night of the Living Dead, , January 5, 1969, Aleksandar Hemon, The Making of Zombie Wars (New York: Farrar, Straus and 2015, <https://www.theguardian.com/books/2015/may/07/aleksandar-hemon-the-> Centers for Disease Control, Preparedness 101: Zombie Pandemic, July 16, There are five major types of infectious agents: bacteria, viruses, fungi, protozoa, and helminths. In other cases, new virus particles exit the cell by a budding process, . This requires basic research into the life processes of the pathogen and its The surface layer of dead, hardened cells is relatively dry, and skin There are several real-life diseases that could make you act like a zombie.
